

INTRODUCING

## warmcore<sup>®</sup> INLINE PATIO DOOR

*There's never been a better product to meet the demands of the growing aluminium patio market. Sleek, stylish and offering flawless operation, the WarmCore Inline Patio Door utilises the same innovative full-width thermal core technology as the rest of our market-leading range.*

### **SUPER SMOOTH 10 WHEEL ROLLER**

The WarmCore inline patio uses a unique, high-quality wheelset with each sash running on 10 self-levelling rollers to give you ultra-smooth, reliable performance.

### **INNOVATIVE BI-DIRECTIONAL LOCK**

Designed to our exacting specifications, a bi-directional lock creates a tangible sense of security homeowners love.

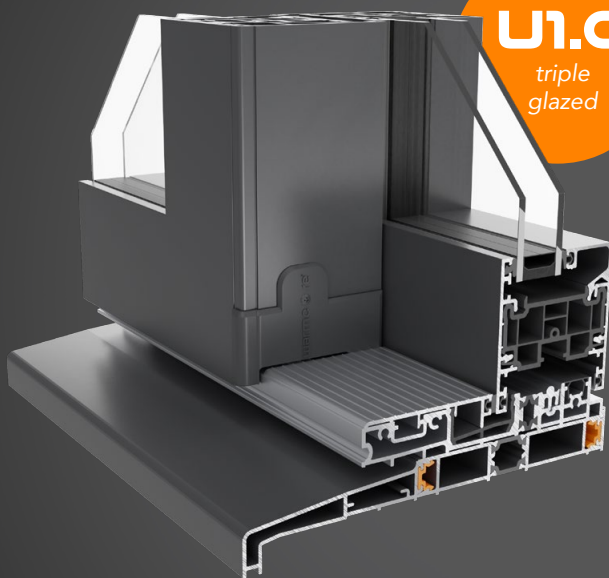

### **EXCEPTIONAL THERMAL PERFORMANCE**

The WarmCore full-width thermal core in the sashes gives a double glazed U-value of 1.4 and triple glazed U-value of 1.0 - coupling market-leading thermal performance with the desirability and consumer appeal of aluminium.
